RedTeam Security Becomes MSPAlliance Member- The International Association of Managed Service Providers

RedTeam Security demonstrates commitment to the Managed Services Industry

MINNEAPOLIS, MN, 12/22/2009 - The MSPAlliance (MSPA) the International Association of Managed Service Providers (www.mspalliance.com), today announced that **RedTeam Security** has become a member of the MSPAlliance.

The MSPAlliance is the oldest Managed Services group and the only Accrediting and Standards based body for the Managed Services Industry. With over 9,000 members world-wide, the MSPAlliance is a very powerful and influential global organization, working to promote the managed services industry to the business consumer. MSPAlliance member companies' are able to achieve Green IT Certifications, Disaster Recovery Certifications, and ultimately achieve MSPAlliance Accredited Provider Status.

"We are honored to have RedTeam Security as a member of our association," said Charles Weaver, MSPAlliance president. "By upholding the Managed Service Provider's Code of Ethics and high technical standards, RedTeam Security will help ensure the integrity of our profession."

About RedTeam Security

RedTeam Security is a Minneapolis-based company dedicated to providing professional information security consulting services. RedTeam specializes in Penetration Testing, Risk Assessment, Compliance, Security Policy Development and General Security Services. Their managed service offering includes *CISSP-on-Demand*™ -- providing expert security advice and guidance at a moment's notice, when the client needs it most.

About MSPAlliance

The MSPAlliance is a professional association of 9,000 managed service providers and service enabling technology vendors, who work in a collaborative effort to define, promote and educate the Managed Services Industry and the end-user consumer on the adoption and successful use of technology through Managed Services. The MSPAlliance is committed to increasing reliability and dependability in the industry surrounding the value and benefit of using Managed Service Providers to provide a wide range of mission-critical services. In addition, the MSPAlliance collects data on the practice of managed services on behalf of its members, to help them increase the value delivery of IT to the organizations they serve.
